

PERFECT CONGRESS VENUE IN THE HEART OF RANDSTAD

At Expo Haarlemmermeer, the organization completely determines the layout of the different spaces according to their own wishes. There is an auditorium and there are several subspaces, this makes the location very suitable for a congress. Also a trade fair in one of the halls is easy to combine with a congress or a product presentation. The large outdoor area of over 21,000 square meters also lends itself for various purposes: from an active outdoor program to educational breakout sessions in the park.

FACTS
